

Ananta Companies

Environment Policy

Ananta Companies promotes environmental management, focusing on environmental issues as one of its top management's priority. We strive to evolve and implement our Environmental Policy – in addition to complying with applicable environmental laws and regulations. Over the long-run, only a sustainable approach will benefit the consumers, customers, associates and communities we serve by both meeting our business goals and protecting and improving the quality of the environment in which we all live. Ananta Companies Basic Policy for the Environment is set forth below in accordance with The Essence of Ananta Companies Environmental Vision. We of the Ananta Companies recognize that the basic responsibility of people living today is to hand over the precious global environment to the next generation in a sound condition.

Promoting environmental management

- Ananta Companies considers environmental stewardship to be one of management's primary responsibilities and promotes environmental activities in harmony with economic activities.
- Ananta Companies assesses the impacts of its business activities, products and services on the environment, including with regard to biodiversity, and specifies objectives with respect to the reduction of environmental impacts through prevention of pollution, reduction of waste and minimization of the consumption of resources.
- Ananta Companies complies with all applicable laws and regulations, buyer's guidelines it has endorsed, and its own standards concerning the environment.
- Ananta Companies strives to enhance the awareness of all its employees with respect to the environment and requires that they make a practical contribution to the environment through their work.

Providing environmentally conscious production and services and reducing their environmental impact through business activities

- Ananta Companies recognizes that natural resources are finite and implements vigorous environmental measures to promote their effective and practical use in terms of both products and business processes.
- Ananta Companies tries to develop environmentally conscious products and services which contribute to the reduction of environmental impacts throughout their life cycles.
- Ananta Companies strives to reduce the environmental impacts of all business processes, encompassing design, procurement, manufacturing, logistics, sale, and disposal, with a particular focus on the prevention of global warming, efficient utilization of resources and control of chemical substances.

Through collaboration with our stakeholders

- Ananta Companies contributes to society through its environmental activities, which include cooperation with society at large and with local communities.
- Ananta Companies is committed to maximizing disclosure and transparency in communication with stakeholders and society at large in order to facilitate mutual understanding.
